SKILLS

Javascript | React Js
Node Js | Express Js
Redux | HTML | CSS
Next Js | Bootstrap
Tailwind CSS | Jest
Puppeteer | GIT

Kubernetes
MySQL | Docker
Docker cli | MongoDB
MongoDB Atlas | npm
json | Meterial UI
API interactions

TOOLS

MySQL Workbench
Rancher Desktop
VS Code | Github | JIRA
IntelliJ | OpenShift
Postman | Figma

LANGUAGES

English: Fluent
Hindi: Intermediate

ABOUT ME

"Hi, I'm Ramesh P R, a dedicated Software Developer with 1 year of hands-on experience at IBM. Proficient in JavaScript, React, HTML/CSS, and skilled in Docker, I have a passion for crafting clean, efficient code that drives results. As a strong team player, I excel in collaborative environments and pride myself on my excellent communication skills. My knack for problem-solving and debugging makes me a valuable asset to any development team. I'm eager to contribute my expertise to drive innovation and deliver top-notch solutions."

WORK EXPERIENCE

SOFTWARE DEVELOPER | IBM

📅 Jul 2022 – Present   📍 Kochi, India

- Worked as a software developer in two projects in an In- novative startup section known as Hyper Blue within IBM.
- **Pathway Signal Management**: An IBM incubator dedicated to help healthcare organizations improve and simplify the collection, organization, and visualization of their healthcare data to help reduce unwarranted variation in care delivery. In this project my main job role was front end Development using JavaScript, React JS and UI Testing (puppeteer, Jest). Here I implemented all the testing required for the UI using Puppeteer Library to test out the UI Components and ensure functionalities. I have also gained exposure in using IBM cloud for this project.
- **Conveyor AI**: Is IBM's multi-model productivity tool, that covers code generation, test generation, and document generation, powered by IBM hosted LLM's, here I got exposure to Typescript Terra-form (ec2, AWS s3) and Open-shift (CLI and Console), took part in implementing error-handling and improving robustness of the system.
- Familiar with using tools like Jenkins, Docker, GIT, JIRA.
- Familiar with technologies like Redux, Bootstrap, Tailwind CSS, Kubernetes, Containerization.

SOFTWARE DEVELOPER INTERN | IBM

📅 Jan 2022 - Jul 2022   📍 Kochi, India

- Worked as a software developer Intern in IBM.
- Took part in UI Developement and testing.
- Gained knowledge in GraphQL

PERSONAL PROJECTS

Portfolio |

- My personal portfolio made using UI best practices in ReactJs.

MovieFlix |

- Reactjs, API, React Hooks, Tailwind CSS

IMDB-Clone |

- Next js, Tailwind CSS, Hooks

Modern UI |

- ReactJs, CSS(BEM Convension)

Task manager |

- NodeJs, Express Js, CRUD

ACHIEVEMENTS

IBM Developer Jumpstart - Practitioner | 2023

- Certification received on completing the Developer JumpStart event conducted by IBM.

Good tech Scholar Program - 2021 | 2021

- Certification received on completing the Good Tech Scholar event conducted by IBM.

EDUCATION

MCA | Rajiv Gandhi Institute of Technology, Kottayam

📅 2020 – 2022   📍 Kochi, India

- Gained theoretical knowledge on Data structures, Agile Software development and best practices.
